Hindi 

### INTERESTS

- I absolutely love traveling and have a deep passion for exploring new places, cultures, and experiences.
- I am also deeply passionate about learning new technologies.

### PROJECTS

#### TOURS AND TRAVELLING PLATFORM

- Developed and launched a dynamic Tours and Travels website, showcasing a keen understanding of user experience and modern design principles.
- Implemented a responsive and visually appealing interface to enhance user engagement, featuring seamless navigation and captivating visuals.
- Integrated advanced search and filtering functionalities to streamline the user's journey in discovering and selecting travel packages, ensuring a user-friendly experience.
- Incorporated an interactive map feature to allow users to explore destinations, attractions, and itineraries, enhancing the overall exploration process.
- Established a robust content management system, enabling easy updates of travel packages, itineraries, and promotional offers to keep the website current and aligned with market trends.
- Implemented a user-friendly admin panel for efficient management of website content, ensuring timely updates and additions to the tour catalog.

#### RECIPE SHARING PLATFORM

- Created a web-based recipe-sharing platform that allows users to discover, upload, and share their favorite recipes.
- The project involves developing a user-friendly interface for browsing and searching recipes.
- implementing features such as recipe creation and editing, and incorporating social features like user profiles, comments, and ratings to encourage community engagement and interaction.
- The platform aims to provide a seamless and interactive experience for food enthusiasts to explore, contribute, and find inspiration in the culinary world.

#### COVID AWARENESS

- it is a Covid19 Awareness Website made with HTML, CSS, and Bootstrap.
- It gives detailed information about precautions, symptoms, and the causes of Coronavirus guiding you about the various myth busters and activities taking place related to corona.
- In short, it is the go-to website for anyone who wants information related to corona and its updates.
